Workshop Descriptive Paragraph – NAD Young Adult Ministries is developing a University Student Leaders Network & Advisory to be a voice to administrators and to give input into the many ministries at all levels of church leadership (Church, Conference, Union, Division, General Conference). This workshop addresses the commonalities and differences of Campus LIFE for college/university students.

Introduction

Lucien – Whether on an Adventist or non-Adventist campus there are things that we are all going through.

Ray - Sharing the differences and what we have in common is important. We are all in this together and yet we have different areas of expertise. We are here to discuss some of the challenges as well as the opportunities we have on both types of campuses.

Ron – One of the issues within our Adventist organization is our silos. There is a bigger heading that we all work under which is higher ed. There are ways that we can help each other – whether an Adventist school or non-Adventist school, we are all working towards the same goals.
