

Leadership: The Youth Leader as Spiritual Leader, Mentor and Friend —LEAD 186

Description

The youth leader is an integral part of the local church. He/she should work with the youth, their parents, the pastor, and volunteers to develop and implement a yearly plan with regular social, educational, spiritual and/or mission-oriented events meant to develop and maintain a vibrant program. Along with being fun and welcoming, this will also help to build a sense of community within the youth of the church, provide opportunities for both spiritual and social development, and help them connect with one another while growing in their faith. Since the local church is the hub of youth ministry, the plans of the youth council should look for ways to include initiatives of the Conference, Union, Division and General Conference in their yearly calendar.
